Plate XXVIII. PEARL-TURTLES. Two thousand one hundred eighty li southwest along the second guideway through the Eastern Mountains stands the first peak of Vine Mountain. There are no plants or trees here. The Li River emanates from here and flows eastward into Yu Lade. In it dwell many Pearl-Turtles. The Pearl-Turtle's form resembles a lung with eyes and six feet, and it possesses pearls. Its flavor is sweet and sour. Eating it will protect against seasonal epidemics., 2021
